

Please Don't Flush

Disposable Wipes

Disposable wipes, whether branded as "flushable" or otherwise, should never be flushed down into our sewer system. Although wipes may say they are "flushable," these wipes can still cause a blockage in sewer pipes that can cause back-ups into homes. Wipes do not break down in the system, and instead become stringy rags in the collection system, which then get caught in the pumps of lift stations.

All disposable wipes, such as disinfectant wipes, cleaning wipes, baby wipes, cosmetic wipes and flushable wipes should never be flushed down the toilet. All disposable wipes should be discarded into the trash. Protecting our infrastructure saves all of us money.

Help Keep Perry Clean

By bagging all your garbage and keeping the lid closed on the garbage container, you'll help keep your yard and neighborhood cleaner. Please place all trash and

garbage in a bag prior to placing into a trash container. Bagged garbage reduces odors, reduces littering and keeps garbage containers cleaner.

No garbage or waste should be above the top or around the containers. Workers will only collect waste in the containers. Please do not overfill or pack the containers or items can become lodged and the containers will not completely empty.

Please call City Hall at 515-465-2481 if you have any questions.
